Organic Weed Control Experiment - Vegetable Gardener Some plants may die above ground, but send up new growth from the root. This means that you will not get 100% control using vinegar. Caution. If you are going to use these methods to control your weeds, care must be taken. The boiling water and vinegar are not selective when it comes to plants. The Kitchen Lab: Using Vegetables and Fruit in Scientific ... Experiments featuring vegetables and fruit are a great way to get kids interested in science. By using these everyday edibles to demonstrate scientific reactions, you can spark kids's imaginations and start them questioning how the world around them works. NASA - Vegetable Production System Veggie can support a variety of experiments used to determine how plants sense and respond to gravity. A portion of the crop plants are typically harvested and consumed by the crew members with the remaining harvest packaged and returned to Earth for further analysis.

Fruit Battery Experiment - Explorable Fruit Battery Experiment, Travis V. Batteries store chemical energy and transform this energy into electricity. This is how batteries make gadgets and electronic devices work, like mobile phones, MP3 players, flashlights, and a whole lot more.
